Register Your Team

Steps for Competition Participation:

- 1 Teacher Registration**
Teachers must first register on the platform. From the dashboard, they can add teams and assign students to each team.
- 2 Create Teams**
Using the teacher dashboard, teachers can create teams by selecting one of three categories based on the students' age groups.
- 3 Choose a Problem to Tackle**
Guide your students in identifying topics they are passionate about and help them discover actions they can take to make an impact.
- 4 Build Knowledge and Design Solutions**
Encourage students to utilize the online resources available to learn about AI and its responsible, safe use. Support them as they explore various technologies
- 5 Present Your Innovative Solution**
Students should present their solutions and explain how they benefit the community in a PowerPoint presentation of no more than 10 slides,
- 6 Submit Your Team Application**
Once registration is open, teachers must submit each team's application on behalf of the students. Note that only teachers can submit the team's entry.

Create a Project That Can Reflect in One of These Concepts

AI for Earth

AI for Earth focuses on using AI to solve environmental challenges. The goal is to create sustainable solutions that help preserve our planet.
